**Ways you can help your child this term:**

- Spending time daily to read with your child is essential. Daily reading allows your child to practise key skills which they learn within school. It helps them to become more fluent and develops their understanding for the world around them.
- Practising writing and maths skills at home will allow your child's learning to become sticky.
- Numbots is beneficial to your child's learning. 15 minutes a day on this would be fantastic. If you need their login then please let us know. We share Numbots celebrations in Collective Worships on Fridays.
